## COAST CLIPPINGS.

The indebtedness of Grant county, Or., is \$19,163.

There are 3,833 children in San Bernardino county, Cal.

Dennis Kearney made a speech at Sacramento Wednesday evening.

Colusa, Cal., wants a railroad to Williams. It will cost but \$80,000.

A double hollyhock stalk sixteen feet high is what Los Angeles reports.

The mercury stood at 105 degrees in the shade Wednesday afternoon at Chico.

California fruit and produce leaves Sacramento daily for the East by the trainload.

Citizens of Pacheco, Cal., are making arrangements to hold a Harvest Home picnic next month.

The citizens of Clayton, Cal., have subscribed to build a telephone line from that town to Pacheco.

The trade of Arizona is of great benefit to Southern California, which finds a good market there for all its surplus products.

The receipts of precious metals by the banks of Salt Lake from the Utah mines, during the week ending Aug. 4, aggregate \$106,312 91.

Tim Garwood, a desperado, charged with outraging Mrs. Fossler and driving her insane, has been arrested at Portland, Oregon, and held under \$1,000 bonds.

**Salt Lake Tribune:** The brethren are quarreling over irrigating water. Yesterday one of them forgot his endowment obligations and whaled his brother in Christ over the head with a shovel.

Tuesday night the large new separator of D. M. Reavis, at Chico, was burned. The fire also consumed about five hundred sacks of wheat which had been threshed where the machine stood.

The Sierra county Tribune has this: The Virginia drift claim at Howland Flat is looking splendid. Gravel that was recently struck is paying from \$3 to \$4 per carload. Mr. Gross, the lessee of the mine is working a force of 50 white men.

The first hops were grown in the Puyallup valley, W. T., in 1866 by J. Meeker. There are now 54 hop grounds in the valley with an aggregate of 685 acres. The largest contains 53 acres. A number of fields in the valley have for years yielded 2,000 pounds to the acre. The season's crop in the valley will not be less than 900,000 pounds.

The Salt Lake Tribune says: We have received a letter from the father of one of the girls enticed from London by the Mormons, mention of which appeared in the Tribune several weeks ago. The distressed father informs us that the attention of Parliament has been called to the matter, and he hopes to call national attention to these cases.

Richard S. Wallace, the 15-year-old son of Robert Wallace, met with a fatal accident at Brentwood, Contra Costa county, Cal. The boy had left his gun on the ground, and after mounting his horse reached to the ground for the gun. The hammer caught in a twig and one of the barrels was discharged. The shot entered the back of his head, killing him instantly.

The Salt Lake Tribune has a long and circumstantial account of the recent marriage of Territorial Auditor Clayton to a second wife. This man was married and had one child. About eight months ago he became infatuated with the young widow of Ernest Young, a son of Brigham. This passion increased until he grew to absent himself for whole days from home. A domestic crisis soon occurred. He declared that he must be "sealed" to the widow to save her from future punishment. His legal wife naturally objected and he left her. Since then he has been sealed in duo form and is a polygamist, but still retains his office. His deserted wife has recently given birth to another child, and is reported to be in great distress of mind over his cruel abandonment.

"Now you may not think it remarkable, but I do, that St. Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

## MISCELLANEOUS.

**WARNER'S SAFE**  
**KIDNEY & LIVER CURE**

The Leading Scientists of To-day agree that most diseases are caused by disordered kidneys or liver. The discovery of Warner's Safe Kidney and Liver Cure marks an era in the treatment of these diseases. It is a POSITIVE remedy for all diseases that cause pain in the lower part of the body, for torpid liver, headache, jaundice, dizziness, gravel, fever, acute malarial fever and all difficulties of the kidneys, liver, and urinary organs. It is an excellent and safe remedy for females during pregnancy. It will control menstruation, and is invaluable for leucorrhoea or falling of the womb. As a blood purifier it is unequalled, as it cures the organs that make the blood.

This remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLES of any medicine on the market, and is sold by druggists and dealers at \$1.25 per bottle. For diabetes, inquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE remedy.

**REPUBLICAN**

**STATE CONVENTION**

At the called meeting of the Republican State Central Committee of Nevada, held at Virginia, March 14, 1882, it was resolved that a State Convention should be held at

Reno, Washoe County, Sept. 4, 1882.

And that the apportionment of delegates from the several counties of the State to said Convention should be as follows:

Churchill.....1

Esmeralda.....1

Eureka.....1

Leader.....1

Lincoln.....1

Ormsby.....1

Washoe.....1

Douglas.....1

Storey.....1

Lyon.....1

Nye.....1

White Pine.....1

Total.....17

The following resolutions were also adopted:

Resolved, That the delegates to the State Convention be elected at Primaries, and that the various County Central Committees be requested to call said Primaries on Saturday, August 19, 1882.

Resolved, That if a vacancy should occur in any delegate after the Primaries are held, said vacancy shall be filled by the remaining delegates.

Resolved, That any county may elect delegates to the State Convention at a County Convention, the members of which shall have been elected at regular Primaries, held on or before the 15th day of August, 1882.

The following test was adopted and recommended for use at the Primaries: "Are you a Republican, and will you support the nominees of the Republican State Convention?"

ISAAC L. REQUA, Chairman.

ALP. DOWEN, Secretary.

## Attention Republicans.

## NOW IS THE TIME FOR WORK.

In some respects the coming election is one of the most important Nevada has ever had. The State is dull, and there should be an honest, economical and intelligent administration for the next four years. There should be no burden added to the people's already heavy load, though either incapacity, which makes expensive mistakes, or dishonesty, which makes direct and indirect steals. Now is the time for the people to attend to these things. After the election they can only grow; now they can act. Let all good citizens of both parties attend the primaries. Let good, square men be sent to all the conventions, let them consider the claims of candidates only with reference to their fitness and ability to do the State good service while in office, and they will be doing patriotic work.

## TELLING AGAINST DEMOCRACY.

The impression is growing that if the Republican party puts up a good man for Congress that Mr. Cassidy can be beaten this Fall. The tide is setting strongly in favor of Republicanism. The monstrous mismanagement shown in every county where the Democracy has power is another proof that that party is not in harmony with the spirit of the age, and is incapable of any enlightened and enlarged policy for conducting important affairs. The course of Virginia office holders, the mistakes of Flanagan in Washoe and of the Treasurer of Elko county, and other things, are telling with the tax-payers.

## EDITORIAL NOTES.

The Oregonian says that the completion of the Northern Pacific line will give the Columbia river salmon fresh as it comes from the water, access to the great markets of Chicago, Philadelphia and New York. It is proposed to run a daily train of five or more refrigerator cars on passenger schedule for this special purpose.

The Norristown Herald says Mrs. Swissheim says if she was managing this world she'd give no man a dollar until he earned it. This would be pretty hard on our national law-makers, and they will probably vote an appropriation of \$1,500,000 to devise a scheme to prevent Mrs. S. from assuming the management of this world.

Russia may have "300,000 men in the Caucasus," but she will not go to war with England just yet. She has no money, no railroads and no allies. Germany could place an army over the Russian frontier in less than a week. Russia could not get to its own frontier inside of two weeks, if so soon.

A good many people seem to be granted naturalization nowadays who do not know what the term "republican form of government" really means, and don't pretend to know. But then there are many more old citizens who pretend to know, and don't.

The Yonkers Statesman says the jokes of circus clowns are made of kind words; for kind words, you know, never die. It is a good deal that way with the Statesman's wit, which has a specially ancient odor.

Major Laughton this morning blushing informed the GAZETTE that if the people wanted him for Lieutenant Governor he would try and be a good one.

The Storey County Grand Jury have evidently found a mare's nest. Four indictments have been found against Roadmaster Miles Finlen, and the end is not yet.

Mrs. Dr. Patterson, the San Diego cancer fiend, has been found guilty of obtaining money under false pretenses.

No Legislature or Government ever enacted an honest man.

Four hundred and twenty-two persons were appointed to clerkships in the Pension Office yesterday.

## TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

## EASTERN.

Fatal Explosion.

POUGHKEEPSIE, N. Y., August 10. A premature blast at Cornwall, on the West Shore road, killed four men and wounded several others. It seems a blast did not explode, and the men thinking they had the hole cleaned out, were about to sink it deeper, when the powder exploded, driving the drill through the head of one man, breaking one man's leg and destroying the sight of another. The explosion loosened pieces of rock weighing about six tons which fell directly upon Ben Hooper, in the next cut, crushing him to a jelly. Simpson McKel is not expected to live. George Casen loses his eyesight. About twenty men in the cut where Hooper was killed ran promptly to aid the men where the explosion took place, thus escaping the tumbling rock.

The Korean Treaty.

New York, August 11.

The Times Washington special says: It is learned here that the Japanese native newspapers are pulling Commodore Shufeldt's Korean treaty to pieces savagely, and at the same time criticizing his method of securing it. It is asserted that he alternately depended upon Japanese and Chinese influence to gain the attention of the Korean Government, and there is a tone of protestation because Corea did not inform her change of policy in entering into commercial and diplomatic relations with outside countries. Shufeldt's treaty is characterized as unintelligible and consistent in declaring that the United States and Corea shall be regarded as on equal footing, thus making Corea stand as an independent Kingdom.

Lynched.

ATLANTA, August 10.

A negro accused of outraging a white girl was taken out of jail last night at Newman and hanged by a party of 75 men. He was tried by the crowd and confessed that he and another man committed the deed.

POMEROY, August 10.

W. T. Campbell and Wm. Swisher, arrested for participating in lynching Holmes, the negro charged with outraging a child, went to jail, refusing to give bail. The Sheriff has armed 25 men to prevent the friends of Campbell and Swisher from releasing them by force.

Statement Denied.

BISMARCK, D. T., August 10.

Rufus Hatch, the New York broker, denies the report that he purchased any land on the North Pacific Railroad. He is out here as the representative of millions of money in the hands of New York capitalists, which will be loaned to the North Pacific, if he finds the country as represented. He expresses himself as astonished at the immensity of the enterprise, its thrift and inexhaustible resources. He states that the North Pacific will not need to go to Europe to negotiate its loans hereafter.

Indignant Women.

WASHINGTON, August 11.

Lady applicants for positions are increasing in the Interior Department under the recently authorized increase in the clerical force, and all who failed to receive recognition held an indignation meeting and organized "The Woman's National Labor Organization." Resolutions denouncing the "one man power" in a nation and declaring that they would fight it out were passed.

For the Convenience of Attorneys.

SARATOGA, N. Y., August 11.

The National Bar Association today passed resolutions in favor of the adoption of some system of compilation and revision of the laws to prevent errors and ambiguities constantly occurring in the State legislation.

To De Long's Widow.

NEW YORK, August 11.

The graduating classes of '76 of the school ship St. Mary to-night presented engrossed resolutions to Capt. Wooten, for the widow of their late instructor, Lieutenant De Long. Lieutenant Danenhower and Vice-Admiral Guinn made addresses.

A Reporter's Troubles.

CHICAGO, August 10.

This afternoon Newton McMillan, night reporter on the Daily News, shot himself through the left lung with suicidal intent. The ball was extracted at the back. It is believed he cannot live.

Nominations.

RICHMOND, Va., August 11.

The Readjusters' Convention of the third Congressional District, has nominated John Ambler Smith. He represented the district as a Republican in the 42nd Congress.

Cholera in Illinois.

DANVILLE, Ill., August 10.

Victor Leseure, one of the oldest and wealthiest citizens, died last evening with genuine Asiatic cholera.

Cold Weather East.

CHICAGO, August 11.

The past few days have been very cool, and uncomfortably so at times.

and frosts are reported from northern Wisconsin. Even in the suburbs of the city there was a light frost Thursday night. The cold spell has, however, done no damage to grain or crops.

The Hillsdale Boat Crew - Trunked Matched With Clingstone for \$25,000.

NEW YORK, August 11.

The Spirit of the Times says, editorially: It now seems absolutely certain that in their cowardly effort to sneak away from a fair race with the Hillsdale crew, the English Amateur Rowing Association have added to their crimes deliberate, wilful falsehood in regard to letters of inquiry said to have been sent to America. No such communications have been received here, and all this time the English Amateur Rowing Association stolidly waits for answers to letters which were certainly not sent as announced, and probably have not yet been written. And these are representative English gentlemen oarsmen. The same paper announces that Col. Wm. Edwards, of Cleveland, has accepted the challenge of John W. Shaw to trot Trunked against Clingstone for \$25,000 a side. The contest takes place at Hartford.

Amalgamated Iron and Steel Workers.

CHICAGO, August 11.

Secretary Martin, of the Amalgamated Iron and Steel Association, says they have adopted resolutions guaranteeing manufacturers that they would not ask for an advance on the nailing and puddling scale of prices for five years. They have not asked a guarantee of the manufacturers, but they have secured a better constitution and code than ever before and laid a basis for a better understanding with them.

Political.

LOUISVILLE, August 11.

The official vote of this county shows Webb elected County Clerk over Egathoff by 43 majority. The total vote is 19,745. Returns from the State come in slowly and there has been nothing developed which would lend to break the prediction made a week ago, namely: that the Democrats will elect Henry, Clerk of Appellate county, by 35,000 majority.

Twenty-one Years Ago.

ST. LOUIS, August 11.

The 21st anniversary of the battle of Wilson's Creek, at which General Lyon was killed, was celebrated here to-day, and largely attended.

FOREIGN.

EGYPT'S TUMBLE.

A Proclamation Against Arabi Pasha - A Council of War - The Enemy to Evacuate Kamlet.

CONSTANTINOPLE, Aug. 10.

The following is the text of the proclamation against Arabi Pasha, communicated to the conference to-day:

"Arabi Pasha, having a second time transgressed the law by taking authority which does not belong to him and having presumed to menace vessels belonging to an old and tried friend and ally of Turkey, is, for these misdeeds, proclaimed a rebel, together with his adherents.

"Be it known to all that obedience is due solely to the Khedive, who is the representative of the Sultan."

Lord Dufferin submitted to Said Pasha a draft of the military convention proposed by Great Britain. The Duke of Connaught in an interview with the Khedive, conveyed a verbal message from Queen Victoria expressing her deep sympathy and best wishes for the Khedive and Egypt.

A council, composed of Admiral Seymour and the leading military authorities here, has been sitting on board the Helicon to investigate the effect of the bombardment of the forts. The evidence of naval and military officers is that masonry is useless against modern guns, but the earthworks turn every shot. A council of war was also held, at which the Duke of Connaught was present.

A Circassian, who passed through Arabi Pasha's camp, states that a Captain, a Colonel, a subaltern and 76 men were killed on the rebel side of the engagement on Saturday. He confirms the report of Arabi's bad health. He says twenty-five battalions and eleven batteries are posted along the canal between Kafr-el-Dwar and the advanced outposts.

An Egyptian trooper of the Khedive's guard was taken prisoner while trying to cross the Rameleh lines. A paper in Arabic was found on him. The probability is that he was making for Arabi's camp.

While Mrs. Stone was waiting for the train, Yakoub Pasha expressed regret that General Stone had cast his lot with the English. He begged Mrs. Stone to tell her husband the Egyptian army would show how greatly it had profited by the 12 years of instruction it had received from him.

It is reported that the enemy will evacuate the works opposite Rameleh, and that consequently there will be no attack at present.

VIENNA, August 25.

The Turkish Consul at Bombay has been ordered to give an explanation to the Ulemas of India regarding the action of the Porte in regard to the Turkish troops to co-operate with the British in Egypt, which has produced a great sensation among the Mahomedans in India.

CHATHAM, August 11.

The second battalion of the Royal

Irish Foot, 775 strong, has left for Egypt. Great enthusiasm was manifested on their departure. This completes the departure of troops from Chatham. The squadron of household cavalry has been ordered from Southampton to Cyprus, to form a depot from which to forward men to the front. The second army corps will be brought to its full strength to be in readiness to support the corps already abroad if necessary.

What May Be Expected.

HAVANA, August 11.

Advices from Sagua report the destruction of the corn crop, owing to the extreme drouth. The President of the Central Board of Agriculture of the Republic of Columbia, writes to the Capt. General, warning him to take effective measures to prevent the larvae and locusts from devastating that republic, being introduced into Cuba by vessels conveying cattle to the island, and recommended that cattle in vessels be fed with hay only. He thought locusts would soon invade the United States after reaching Cuba.

Heavy Defalcation in Montreal.

MONTREAL, August 10.

J. S. Hunter, a notary, is a defaulter for \$100,000. He was appointed six years ago to manage the estate of the late Charles Phillips. It is feared he has abstracted large sums intrusted to his charge by others; also, that no part of the amount embezzled can be recovered. He has no property in his own name. He held a high social and professional position.

Imprisoned.

BERLIN, August 11.

Herr En Bebbel Liebknecht and Rosenclever, Socialists, have been condemned by the Leipzig Court to two months' imprisonment for excessive abuse and insult to the Federal Council. They are members of the German Reichstag.

Henry George Again Arrested.

DUBLIN, August 10.

Henry George was re-arrested to-day under the Crimes Act at Athenry, as he was about to board a train for Galway. George protested. He said the arrest was persecution, as he had previously given a satisfactory account of himself.

Drowned.

FLESHERTON, Ont., August 11.

Tate Myles, Edward Myles, John Hugen and William Wisdom were drowned in Brewster lake last evening, by the upsetting of a boat.

## JOTTINGS.

Have you lost a black dog? Stockings to suit all at Levy's. Bonnie Weggoner has the measles. Leadbetter has lots of new goods in to-day. R. E. Queen is doing a splendid business. F. Levy & Bro. for low-priced dress goods. The State Fair programmes and posters are very neat. The Boca Mill Company will cut 7,000,000 feet of lumber this season. Constable Avery has a white cow with black spots in the pound. See \$0 cent column. The Methodist church folks are to have a picnic at Steamboat Springs on the 23d inst. Read ad. The town has been demoralized for a week past. Everybody seems to enjoy late hours and Becker's beer. The nights are too warm to enjoy sleep. Open your window and try the floor; it is more comfortable than a bed. Try it. The ladies who intended to go on a camping trip and leave their husbands at home have shown the white feather. Their courage failed them at the last moment.

## Daggett Gone.

The San Francisco Post of Monday says: "R. M. Daggett, Minister to Hawaii, is an old journalist and he has killed upwards of 40 compositors in his time. When he sees his name recorded in the hotel arrivals as 'R. Daggett,' he will once more seize his tomahawk and take the warpath against the printers." Although the fact has not yet been mentioned in any of the Bay papers, we believe Daggett sailed for the Sandwich Islands Monday. Mr. Lubeck, now on the Comstock, says that before he left San Francisco Daggett told him that he expected to sail on Wednesday of this week. He is now probably bobbing for whales on the raging main—that is providing he is not sadly leaning over the side of his ship feeding the small fry.

## A Dangerous Toy.

The pistol described in the papers as the toy pistol is not the weapon that is doing such murderous work among the youth of the land. This has a cartridge, and it is the careless handling of these pistols while loaded that does the mischief. The cartridges for these pistols were formerly sold for fifty cents per package, but now they are much cheaper, and in some places are sold as low as ten cents a package, showing that some cheaper and dangerous material has been introduced into them. The caps that look like paper wafers are the most dangerous of all. They contain something that produces lockjaw if the particles penetrate the skin.

## For Sheriff.

Charles W. Jones announces himself as a candidate for Sheriff, subject to the decision of the Republican County Convention. Mr. Jones has lived in this county for 14 years and has always been a thoroughgoing, straightforward business man. He has held places of trust before and never has failed to give good satisfaction. He has been voting the clean-cut Republican ticket since 1886, and deserves well of his party. Should the Convention give him a place on the ticket he would make a very strong run, and if elected would make as good a Sheriff as Washoe ever had.

## No More Foolishness.

Times have of late noticeably improved in Gold Hill. The idle men of that town can now be counted on the fingers of one hand. The Enterprise says large quantities of good ore are again being taken out of the Belcher and Crown Point mines, and not a little work is going on there at other points about which not much is said. It is true that the town is not so populous as in former times, but the people now there are by no means to be commiserated. They are doing better than those of the majority of the towns of the Pacific Coast.

## The Result of Observation.

The Boston Globe tells of one of the Hub's society ladies who was struck with a fancy to see how much truth there is in the assertion that is sometimes made as to the mustache being the national style of whisker, has taken a census of mustaches, counting them as they were seen in street cars, restaurants, places of amusement, and on the street. The result was that out of 1,065 gentlemen thus numbered, 520 wore the mustache alone, 455 wore other styles of whisker, and 90 wore none at all.

## Personal.

Geo. L. Suydam, who has been in charge of the mechanical department of the GAZETTE, left here this morning for Eureka. Mr. Suydam is a first-class printer and a good organizer.

For chills, fever, ague and weakness, Golden's Liquid Beef Tonic. Golden's, no other. Of druggists.

## WILL BEEF BE CHEAPER.

Some of the reasons why it is high and will not be cheap again. The Scientific American gives as reasons for the advance in beef that the winter of 1880-81 was exceptionally severe, and heavy losses of stock were suffered on the great cattle ranges of the West. The drought of the ensuing summer acted not less unfavorably upon the smaller herds of the East. The hay crop was short, and the summer and fall pastures failed over many States; so that farmers were forced to kill their young stock. In this way the beef supply was diminished both in quantity and quality, leaving the demand for good beef far in advance of the supply. The exportation of nearly 200,000 cattle contributed still further to lessen the beef supply for home market. Advantage was taken of the situation by speculative dealers controlling millions of capital, and by local rings of butchers and marketmen, and the price of beef was thereby raised far above what it would have been in the ordinary course of trade. All these conditions no doubt had their influence; yet underlying them all was one of far greater scope and potency. Notwithstanding the enormous advance made in cattle raising during the past twenty years or so, the increased supply, even in favorable seasons, has not been at all commensurate with the increase in the demand for beef. The ratio of increase in cattle is less than that in population, so that even with no change in dietetic habits the demand for beef would tend steadily to outrun the supply. But

## OUR APETITE FOR BEEF

increases much more rapidly than our numbers. The marketman makes his daily rounds with fresh beef in hundreds of communities where salt pork was eaten almost exclusively twenty-five years ago; and generally throughout the country beef has largely displaced pork on the tables of farmers, mechanics and well-to-do people. This partly because of the universal improvement in the scale of popular living due to general prosperity, but more, perhaps, to the influence of an active school of would-be health reformers who have persistently decried pork as an article of food and created a widespread and exceedingly unreasonable prejudice against it. Leaving out of consideration any possible increase in the demand for beef for exportation, we may reasonably anticipate that the home demand for beef will continue to increase as fast, if not faster, than the population does; and there can be no marked decline from the present excessive prices until the supply of beef cattle is brought up to the level of the popular requirement. It is not the prime cost of beef cattle in the field or their necessary cost at the shambles, after being driven or carried half across the continent, that chiefly determines the price of the meat to the consumer, but the single fact that the supply is relatively so meager that cattle-raisers can ask and readily get prices which enable them to make 20, 30, even 50 per cent profit per annum on the money invested, selling for six cents a pound, live weight, cattle which cost two cents a pound to raise.

## Valuable Present.

Mrs. E. B. Crocker, of Sacramento, has presented to the Academy of Sciences, of San Francisco, her rare and valuable selection of 1,500 birds and 100 mammals. The collection embraces specimens from all parts of the world, mounted and classified. Some of them are not even found in the British Museum. The Academy appointed a committee to return the lady suitable thanks, and it was resolved that the collection should be known as "the collection presented by Mrs. E. B. Crocker, of Sacramento."

## Big Wood Contractors.

The Carson Tribune says: Mariette & Folsom are doing an immense business this season. They dump about 500 cords daily from the hills by flumes to their narrow gauge, and raise by their incline 250 cords daily. This goes to the Lake View receiving place. The firm has purchased the Minnie Moody sloop and intend using the craft for the conveyance of stores to the camp and also as a means of direct communication to any and all parts of Lake Tahoe.

## Reno Ahead.

Wm. Goeggel has been in business in Reno for several years, and has always carried a large stock of goods. During the past year he has been constantly adding to his stock, until he now has one of the best on the coast. A look at his showcase will convince anyone that he is well up in the business and knows the wants of his trade. His prices are exceedingly low and his jewelry is of the latest styles and best quality. Call in.

## U. S. Jurors.

A. H. Kicketts, Acting U. S. Marshal, has summoned the following named gentlemen to appear before the United States District Court at Carson, September 4, to act as jurors: John Brady, Jerry Schooning, J. T. Davis, Thomas Gallagher, S. A. Nevers, Jacob Tobriner, W. D. Torreyson, C. O. Powaing, F. C. Bishop, B. Jacobs.

Hill's Hair Dye, black or brown, 50 cents.

Use, instead of unwholesome cosmetics, Glenn's Sulphur Soap, which purifies the skin.

## To the Girls.

If you are fortunate in possessing beauty, dear girls, be thankful for the gift, but do not overrate it. The girl who expects to win her way by her beauty and be admired and accepted simply because she is a lady, has the wrong idea. She must secure a loveable character if she would be loved. To win and hold admiration you must cultivate the gifts that nature has bestowed upon you. If you have a talent for music, develop it; learn to play some instrument, for many are charmed more by music than by handsome features. Pursue the same course with regard to painting, drawing and designing, and if you have power to obtain useful knowledge in any direction, do it. Some young men in speaking of their lady acquaintances say: "Oh, they look well, but they don't know anything." There is no necessity for such a state of things; books are cheap and accessible. If you have to labor all day in a shop or store, still at odd intervals you can gather up an education and have no greater difficulties to contend with than did Clay, Fillmore, Webster and others of the greatest men. If you go through life a flying butterfly, how will you be spoken of by and-by? It is nice to eat, drink and be merry, and be courted and flattered by all your friends; but how much better to cultivate character, sense and true womanliness!

## State Fair Notes.

Secretary Roff is busy to-day distributing and posting the State Fair programmes. Next week he will send out the books. Everything is progressing nicely, and the indications are that the coming meeting will be the best ever had in the State. Several large spaces have been engaged in the Pavilion by those who intend to make exhibition.

## Personal.

L. J. Flint has returned from a trip north.

D. W. Whitebeck, of the Boca Mill Co., is in town.

C. E. Loughton was down from Carson last night, paying off the V. & T. men.

P. F. Scott, of the U. P. carpenter department, went to Wadsworth this morning for the purpose of arranging materials for beginning work on the shops.

## WESTERN.

## The Mexican Indian War.

TUSCON, August 11. The Star's Mexican advices of the 8th inst. from Hermosillo, Sonora, says that parties just arrived from Ures report the Apache depredations in that section as most fearful. Over 200 warriors are in the Mazatlan mountains, near Ures, and make daily raids in the valleys in small bodies, burning crops, houses and murdering inhabitants. During the past 12 days 45 persons have been murdered within a radius of 25 miles of Ures. Among the victims are Lazaro, a wealthy citizen of Ures, and two prominent Government officials. Last week they attacked Rancho Viejo. Four of the rancheros were killed and the remainder wounded. Nine Apaches were left on the field. The Apaches are armed with Winchester rifles, and use cartridges stamped U. S. The country is terror-stricken, and business paralyzed. Settlers are fleeing from their ranches to Ures. All able-bodied Mexican troops are being concentrated to operate against them.

## Terrible Explosion at Vallejo.

VALLEJO, August 11. The Hardy powder works, situated one-half a mile southeast of the city, exploded at 11:20 this morning. The mixing, glazing, drying-house and magazine were blown to atoms. The ruins took fire, and nothing is left standing except the water-tank and brick work surrounding the boiler. A. H. Hall, engineer and superintendent, were badly burned, but they have a chance for life. Geo. Edguson and Fergus McArdle were killed. Fifteen tons of powder exploded.

## Preparing For War.

TUSCON, August 10. The Star publishes an interview with Judge Woods, just in from San Pedro Valley, who brings news that El Seimenskin, a noted Indian chief, is making preparations for war. He has assembled 40 or 50 renegade bucks from San Carlos, all heavily armed and who act in a threatening manner. Settlers are greatly alarmed, but have made preparations against surprise. The Chief has for several years been at peace with the whites, but is noted as one of the most treacherous and vindictive Indians in the Territory.

## Knights Templar Banquet.

SAN FRANCISCO, August 10. To-night the grand annual banquet of the Knights Templar was given at the Lick House. About 200 Knights and ladies were present. The banquet was presided over by Sir Osmond C. Wheeler, Grand Prelate, and R. E. Gould. The affair proved a very brilliant. During the evening a number of toasts were proposed and responded to.

## The California Assessment.

SAN FRANCISCO, August 11. The delinquent list of California, published in to-day's Exchange occupies not quite three columns against nine for the first assessment, fifteen for the second and eight and a half for the third.
